

ESSAY ON SURREALISM PHOTOGRAPHY

Photography enriches our lives in many ways. A creative photographer is one who selects and captures qualities in their subject that make.

There is seemingly no context or logic to the image – the female subject is naked and faceless, next to a chessboard; in the sky over a body of water, floats a giant pair of lips. Meghan Garven is a second year student at the School of Visual Arts, studying photography with honors. I also liked how Kertesz tried to make small links in his image. His lifetime body of work displays a combination of experimental techniques and overarching surrealist principles, making him a chief contributor to both photography as an artistic medium and the surrealist movement. *Surreal Lives: The Surrealists*, – For this idea. In the puddle there is a large amount of a tree and outside the puddle. *How Computers changed the World of Surreal Photography* While early Surrealist photographers may have had totally fantastical ideas, due to the technological limitations of the time, they were of course severely restrained in their abilities to realize those ideas in photographic form. Especially when I had a photo of a person and stuck it the other way round so you are looking at a person built up of words. When I looked at *Convulsive beauty*. I abandoned the *Convulsive Beauty* work for 2 reasons. London: Arts Council of Great Britain, London: Tate Publishing, I went down to Sutcliffe park and focused on getting photos of branches contrasting with the sky. They sought of looked like lino paintings. Double exposure is a film negative that has two separate images in the same frame. Early Surrealist photographers included some old-hands from the wartime Dada movement such as Hannah Hoch, but also Man Ray, and even George Brassai employed photomontage, collage, photograms and other innovative darkroom techniques to make surrealist photographic images. So I decided to have it professionally printed. *Dada and Surrealist Art*. Here is the response. This is because I only looked at 2 activities. Though it does offer photographers, such as Kevin Wilson a way of exploring and sharing his emotions and dreams. I also like capturing reflective surfaces mainly in the urban landscape.
